ECINS Helps UK Rescue Vulnerable Youth from Drug Trafficking

ECINS is capable of solving just about any case management problem that exists.

Empowering Communities with Integrated Network Systems (ECINS) is a social enterprise dedicated to improving the lives of vulnerable people and empowering the practitioners who serve them. A purpose-built, cloud-based, highly secure case management system, ECINS is the most widely used multi-agency collaboration tool in the UK and is rapidly expanding around the world. Created on the belief that when people work together they can achieve more, ECINS is capable of solving just about any case management problem that exists.

With no user licenses, ECINS is available at one simple, comprehensive cost. This includes customization, training, and support from real-world experts; access to a robust communications portal; and collaboration with a global user community that's committed to helping one another achieve better outcomes every day.
