ONE SOFTWARE PLATFORM

to Run Your Entire Student Support Services Program

Finally — One Fully Integrated Student Support System that Checks All of the Boxes

ECINS

The ECINS Student Support & Case Management System helps schools become more efficient and effective at implementing and executing much-needed mental health programs, detecting opportunities for early intervention and creating better outcomes for vulnerable students.

The only solution of its kind endorsed by the School Social Work Association of America (SSWAA), ECINS streamlines workflows and reduces administrative burden for schools — all on one HIPAA-compliant system designed specifically to meet schools' unique needs.

ECINS

Whatever Your
ROLE,
ECINS Will Help

Superintendents & Administrators

ECINS
Student Support & Case Management System

School Social Workers, Counselors, & Psychologists

Community Outreach Organizations

Students & Families

ECINS delivers mental health support for students across schools and districts in the U.S. and is changing the game for every key stakeholder.

SUPERINTENDENTS & ADMINISTRATORS

The struggle to deliver access to mental health care with no established playbook is over. Become efficient and effective at implementing and executing mental health programs, detecting opportunities for early intervention and creating better outcomes for vulnerable students.

- **Streamline workflows and eliminate paper documents**
- **Reduce administrative burden**
- **Manage, record, report, and securely share essential information about students with key personnel with ease to enable early intervention**
- **Communicate and engage with students and families to create better outcomes and accountability**
- **Collaborate across schools and districts and with local clinical practitioners to provide systems-level support**
- **Measure the progress of interventions with robust reporting to prove efficacy of programs and secure future funding**

COMMUNITY OUTREACH ORGANIZATIONS

Collaborate securely with community schools and districts to provide essential wraparound support for vulnerable students.

- **Securely manage and share essential information with key personnel with ease to ensure continuity of care and rapid crisis response**
- **Streamline workflows, eliminate paper documents and reduce administrative burden**
- **Measure the progress of interventions with robust reporting to prove efficacy of programs and secure future funding**

SCHOOL SOCIAL WORKERS, COUNSELORS & PSYCHOLOGISTS

Say goodbye to Google Docs, spreadsheets, and endless paper, and hello to getting more done securely in less time.
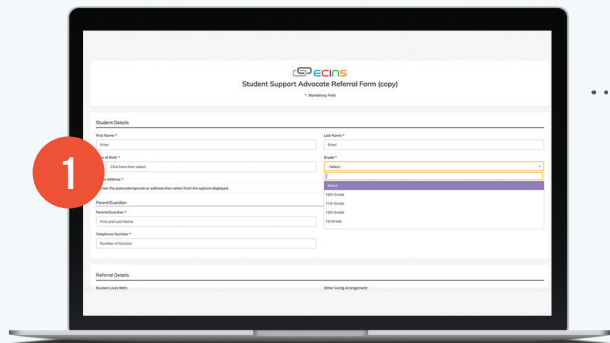

- **Easily record notes and keep them private, even when transferring a file to another school**
- **Reduce liability with HIPAA compliance**
- **Collaborate & communicate with students, families & key personnel**
- **Measure efficacy by demonstrating student progress**
- **Standardize best practices throughout a district**
- **Screen students for behavioral, health and safety risks with minimal resources**

STUDENTS & FAMILIES

Feel confident in student care plans with easy, streamlined access to support staff and program resources.

- **Interact conveniently and discreetly from a mobile device allowing students, families, and support teams to collaborate**
- **Receive reminders and notifications for messages, appointments and tasks**
- **Communicate with one and two-way communication capabilities on the app for improved student response**

# How the ECINS Student Support & Case Management System Works
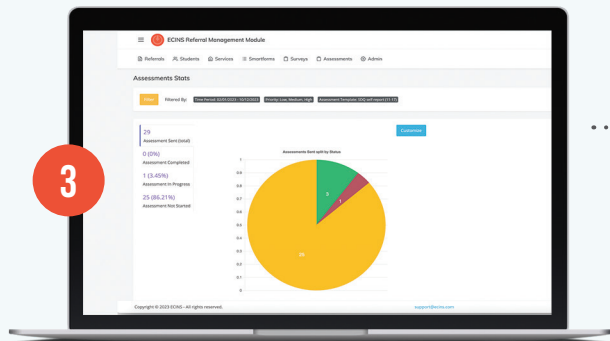

STUDENT REFERRAL FORM

A customized, encrypted referral form can be submitted by school personnel, family members, students, or anyone with access to the link, in order to refer students for a variety of mental health or basic needs support.

REFERRAL MANAGEMENT MODULE (RMM)

After a referral form is submitted, key stakeholders receive an email notification and the form data is automatically populated into the system.

SCREENING ASSESSMENTS

Once populated into the system, various charts can be generated for referral and screening assessments, enhancing the amount of data capture at the referral stage.

CASE MANAGEMENT DASHBOARD

At this stage, referrals are converted to files that can be managed from the customizable case management dashboard.

STUDENT PROFILE

Stakeholders with authenticated access can view, record and securely share relevant details, notes and documentation from a student profile.

Easy-to-Use Features and Functionality

ECINS WHEEL ASSESSMENT

Student progress can be measured using the customizable ECINS Wheel Assessment tool, enabling professionals to evidence student journey mapping.

CUSTOMIZABLE ACTIONS
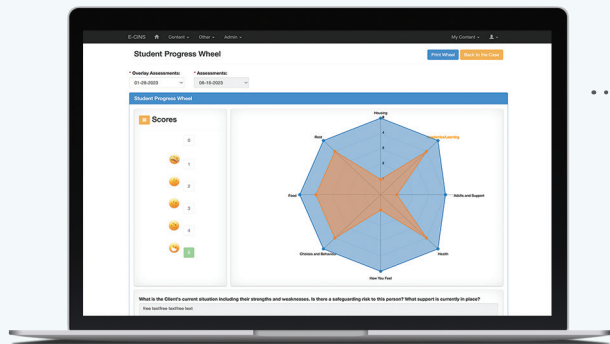

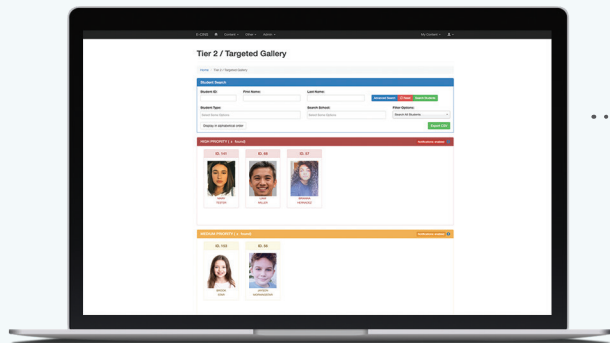

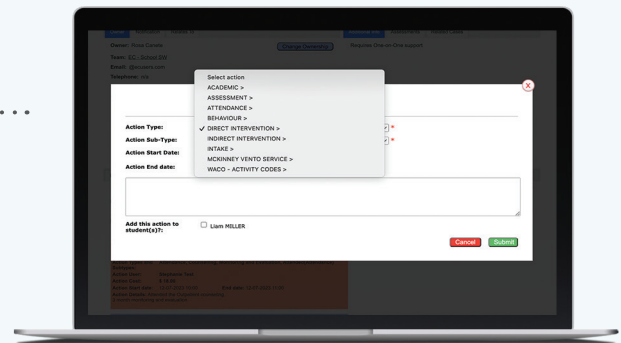

The Customizable Actions feature enables personnel to categorize the interventions they carry out with their students according to the unique requirements of each school district.

STUDENT GALLERY VIEW

The Student Gallery View allows personnel to get an overview of students in each tier category, as well as classify their risk priority in accordance with the level of support or intervention required.

SELF-SERVICE REPORTING

ECINS' robust reporting features include quick exports that generate statistical reporting such as the number and type of interventions carried out across a student population, as well as student journey mapping data that allows detailed evaluation of implemented interventions.

ECINS

The ECINS
Quick & Painless
ONBOARDING
Process

With a dedicated team responsible for your onboarding process, you can get up and running with ECINS quickly. Our experts will guide your stakeholder team through our R.A.P.I.D. onboarding process supported by regular communication from your ECINS' Customer Success Manager to keep you updated on progress milestones.

1 — RESEARCH & AUDIT

ECINS' Customer Success Team conducts a discovery phase, communicating with key stakeholders to determine goals, requirements and needs, and gathering all necessary materials to customize your solution.

2 — PRODUCTION

ECINS' Development Team builds the tailored system, loading necessary functionality including specific requirements that allow for a seamless integration with existing school systems.

3 — IMPLEMENTATION

ECINS' Implementation Team works with stakeholders and users to provide training, resources and best practices that ensure successful application of the system.
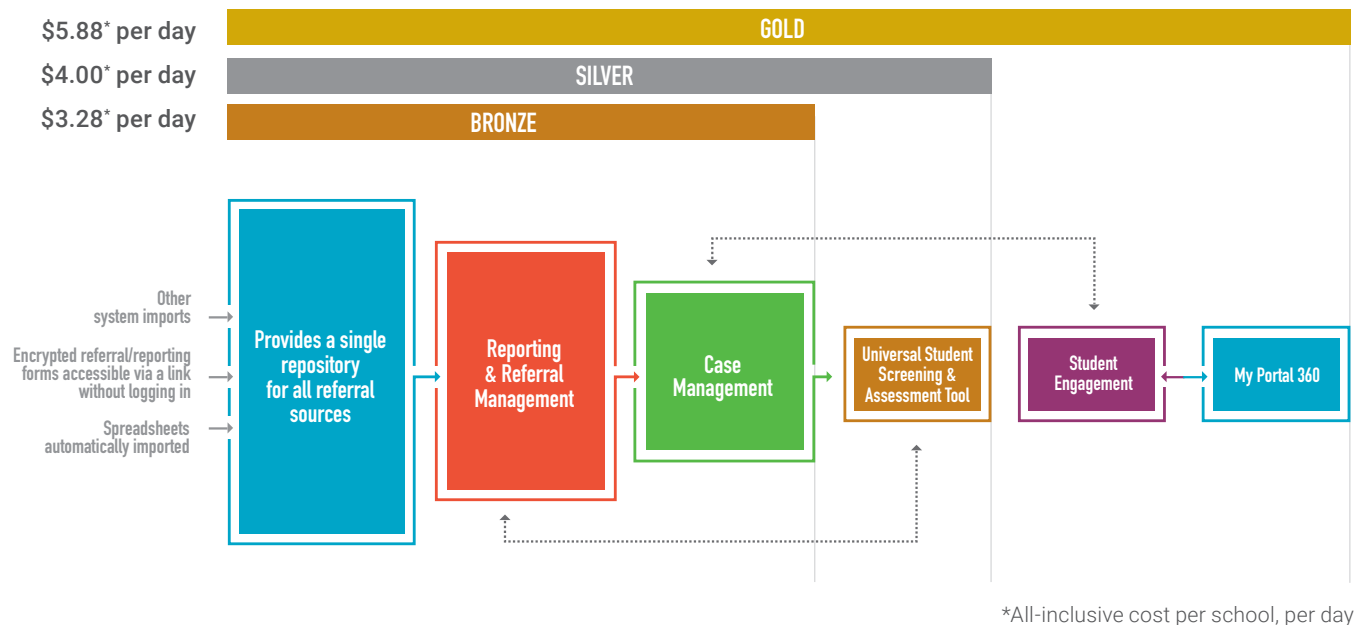

4 — DEPLOYMENT

Your bespoke ECINS Student Support & Case Management system is tested and deployed to users enrolled in your secure platform.

- Scheme reviews and new area of business consultation meetings

*Pricing based on traditional public school district infrastructure

ECINS

SCHOOLS

Across the Country Say
ECINS is a Game-Changer

"
ECINS is so useful for all of our teams - not just one. When a referral comes in, both academic and mental health issues are revealed and can be addressed. The system covers a wider scope than any others. Plus - there is no cap on users!

– School Social Worker Supervisor, Virginia

"
I would rather keep using paper than go with another vendor who is not ECINS."

– School Social Worker, Texas

· ·

"
We started out looking for a way to develop or purchase an integrated web application for the Mckinney-Vento Team and Social Worker Team. It then became apparent that ECINS is a web application that captures five or six of the apps that we previously had, all-in-one. This has presented us with an opportunity to have our school mental health, school psychology and counseling teams on ONE application."

– Associate Superintendent of Student Services, North Carolina

· ·

"
ECINS is light years beyond what we have been using."

– School Social Worker, Minnesota

"
I'm just so excited to think about how this system will really support our Community Schools initiative by being able to allow all of our partners to access one platform. For example, the gang prevention program is taking referrals and they have a host of students that they work with, but some of their referrals might also be getting mental health services. With ECINS, we now have linked two providers that touch the same student allowing them to communicate through this system – it's an amazing thing."

– School Social Worker, Minnesota

· ·

"
In the past, we've used Google Docs, but we were never able to achieve a proper level of confidentiality. We've tried so many different solutions in the last five years that didn't fit the bill, so we were super excited when we found ECINS. ECINS streamlines everything in one place — it's made for schools."

– Lead Educational Support Counselor, Missouri

We're Not Your

ORDINARY

Software Company

Empowering Communities with Integrated Network Systems (ECINS) is a social enterprise dedicated to improving the lives of vulnerable people and empowering the practitioners who serve them. Created in the belief that when people work together they can achieve more, ECINS is capable of solving just about any case management problem that exists in schools and school districts today.
